Garden Innovations

CATALOG 2020

INTRODUCTION

As a wholesaler, ARPE offers an extensive range of barbecues, grills, smokers, fire baskets, garden fireplaces, flame and gas heaters and coolers, infrared panels, LED flame lights and accessories of all kinds. We import our products independently of one another for an optimal price / performance ratio.

ARPE has all exclusive rights to sell EAZYBBQ and ACTIVA products in the Netherlands and in most other European countries as well as in all countries on the African continent.

We supply garden centers, web shops, department stores, paving companies, gardeners, flower shops and other retailers; also with private labels. In the Netherlands, but certainly beyond!

Please visit our website for more information.

Would you like to receive our price list or more information about delivery outside the Netherlands? Please contact us. Or download our catalog from the website.

We are convinced of the quality of our products! In the unlikely event that something is wrong, please let us know immediately. We solve it, replace it, in short: we make sure that you are 100% satisfied. All of our products have a one-year warranty against manufacturing defects.

Disclaimer:

We have really done our utmost, but must officially report that no rights can be derived from photos and other images in this catalog, as these may differ from the actual product.

Nice and cool: our popular Kamado's!

Made from high-quality ceramic material, which keeps the heat in the barbecue.

The insulation ensures that you can grill, smoke, cook, bake, steam and slow cook.

The exclusive 21 inch Kamado is the highlight of our range. A long service life due to the high-quality materials and production.

The 13 inch Kamado is placed on the garden table with the chassis and all. With the lid you create an oven effect and you can read the temperature on the built-in thermometer.

Also available: 13 inch rain covers and 13 inch pizza stones.

Kamado 13" Ø 33 cm. | 24 kg.

Matt black | Shiny black

Kamado 21" Ø 53 cm. | 80 kg.

Shiny black, with stainless steel base

SMOKER STICKS

CHARCOAL

BESTCHARCOAL 100% White Oak

Contains 100% Quebracho Blanco (White Oak) and is ideal for restaurants, retailers and even home barbecues. Quebracho Blanco wood, also known as "axe breaker" due to its extreme density, is 40% harder than other lump charcoal woods and gives double the typical heat and burn time of a briquette. Enjoy hours of clean and low smoke cooking.

Ideal for use with all types of Kamado barbecues!
Weight: 15 kg.

BESTCHARCOAL Blend of Birch and Oak

Restaurant quality from Europe. Handpicked, handcut and hand-fired in brick kilns. The harder the wood, the better the charcoal. Your grilling will be done in no time. All natural with no chemicals or additives.

Weight: 10 kg.

EAZYBBQ Charcoal "ZERO"

Only the very best charcoal is good enough for ARPE's range! Charcoal ZERO's wood is biologically grown, FSC and PEFC certified and produced without any emission (**CO₂: zero**).
Quality: DIN plus.

Contents: 7.5L, 15L, 30L and 60L.

EAZYBBQ®

GRILLSTREAM

Experience the magic of the second grill!

No flare-ups.

More flavour.

Less fat.

Universal system.

Suitable for dishwasher and high pressure cleaning.

- Grillstream's magic double grills prevent fat dripping down onto the burner and causing flare-ups.
- Less fat, more flavour: food is more succulent and more of the juices can evaporate, basting the food with added barbecue flavour.
- Easy clean: minimal fat drips down to the inner barbecue so all you need to do is brush the grills and empty the fat cup.
- Available in two versions: Ø47 cm. and Ø57 cm.

PELLET – FLAMEHEATERS

These patio heaters function completely **CO2 neutral** and are also cost effective.

It's simple: filling, lighting and burning.

- ✓ Burns on wood pellets.
- ✓ No electrical connection required.
- ✓ Without smoke: complete combustion.
- ✓ Ready for use in just a few minutes.
- ✓ Practical in maintenance and cleaning.

NEW

Also available:

Weight: 52 kg

PELMONDO PELLET AND GEL FIREPLACES

NEW

Unique smokeless outdoor fireplaces for optimum enjoyment and warm ambiance.

Discover the most modern outdoor fireplace. Pelmondo is exclusively available in the Netherlands from ARPE.

Progressive and environmentally friendly

Real natural wood fire without smoke. Safe, clean and easy to use. CO2 neutral. Wood is a renewable resource. It binds the existing CO2 in our atmosphere. When wood burns, the stored CO2 is released again. This creates a CO2 neutral cycle. Wood pellets are standardized and are produced regionally from natural waste wood. They burn in a controlled manner. Wood pellets are easily available, easy to store and cheap!

COMPACT LINE

Compact burner | perfect for commercial & private use

Pelmondo Bar Table

Pelmondo Q

Pelmondo Cube Design/Cube Table

Pelmondo Barrel

All products of the Classic line are equipped with the classic burner, which has a burning time of 1.5 hours. In comparison to the compact burner the classic burner offers a more rustic flame and fire design. The products of the Classic line are also available with the compact burner. The Lamp is equipped with a simple burner basket.

BURNERS

Compact burner | perfect for commercial & private use

The compact burner offers a unique fire & flame design. It works without electricity, purely based on nature ventilation. The biomass combustion chamber generates a gasification process. The gas ignites always in the same place, creating a constant combustion. The technically perfectly coordinated primary and secondary air outlets create a breathtaking flame. After the fire phase, which lasts about 2.5-3 hours, the glowing phase follows. After about 3 hours, the ember is completely gone. The compact burner contains no wearing parts and is very wind stable.

Classic burner | perfect for private use

The classic burner offers a rustic fire & flame experience. The burner is mounted on a lifting plate and slides in flame tube. The viewer looks directly at the burning surface. After the fire phase, which lasts about 1.5 hours, the glowing phase follows. After about 3 hours, the ember is completely gone. 15 grams of fine ash is leftover. We recommend this product for private use in wind-calmed zones.

Gel burner | perfect for indoor use

In most European countries it is forbidden to run an open fireplace in closed rooms. We solve this problem with our gel burner. The burner runs with a fuel paste. You are able to extinguish and light the burner as you wish. The flame is 80% smaller as the pellet flame, but also creates a very nice atmosphere. The burner is wind stable and can also be used outdoors.

Exchange burner | double the fire phase

Up to 6 hours of fire pleasure. The compact exchange burner doubles the burning time. This is a very important aspect, especially in the commercial use. If the burning process is finished, you use the practical handle to take out the burner from the case. Then you put the freshly filled exchange burner in the case. That's it. Still hot burners are best stored in the compact burner box. The practical compact exchange burner can be used at all products from the Compact line. At the Bar Table the exchange burner set is combined with an additional ash tray. This allows to store two burners in the device, without the additional compact burner box.

LUXURY LINE

Pelmondo Cube Country

Pelmondo Cube Bull Leather

Pelmondo Cube Golden Eye

All products of the Luxury line are equipped with the classic burner and can be also retrofitted with the compact burner. The difference is in the design and the high quality materials.

Accessories

Burner case, beverage box, cooking set, filling set, isolating plate, burning gel, exchange covers to upgrade design.

You will find additional product information, sizes and prices on www.pelmondo.nl

STONE LINER

We at ARPE Garden Innovations designed this decorative stone liner ourselves and we manufacture it in-house. Ponds, streams and waterfalls in the garden are naturally finished with stone liner. Our stone liner is flexible and easy to install. It does not absorb water and has natural colors.

We deliver stone liner to stores on large rolls that fit our stone liner display. We also deliver smaller dimensions (pre-packed) as well as pre-cut stone sheet.

Stone liner is supplied as standard in the colors Natural and Terrazzo in the following widths: 30, 490, 50, 60, 100 and 120 cm. Any length is possible. Different sizes and other colors are also possible upon request.

Placemats and table runners

Stone sheet for model building
sizes from 14 x 30 cm.

DRAINGRIT

Draingrit has the same characteristics as our stone liner, except for its **water permeability**. As a result, Draingrit is also suitable as a weed protection film, for planters, water features and natural borders. It can also be used as a sidewalk, anti-slip mat and on a roof terrace; in combination with the innovative epoxy. It simply is a perfect product for garden and bedding!

Draingrit is available in the colors **Natural** and **Terrazzo**.

Available in the following widths: 30, 40, 50, 60, 100 and 120 cm. Any length is possible.

LED FLAME LIGHTS

Atmospheric electric LED flame lights, in a bowl or with a campfire look.

LED atmospheric fire, bowl
